# Chair's governance statement

1 January 2023 to 31 December 2023

# Chair's DC Governance Statement, covering 1 January 2023 to 31 December 2023

## 1. Introduction and members' summary

The **Cummins UK Pension Plan** (the "Plan") is an occupational pension scheme providing defined contribution ("DC") benefits (a DC pension scheme is where employee and employer contributions are paid into it, and the member chooses their investments or is invested in the default option and bears the investment risk). Some members also have legacy Additional Voluntary Contributions ("AVCs") in the Plan, linked to the Plan's defined benefit ("DB") Section.

Governance requirements apply to DC pension arrangements, to help members achieve a good outcome from their pension savings. We, the Trustee Directors of the Plan, are required to produce a yearly statement (the "Statement"), signed by the Chair of Trustee, covering:

- the design and oversight of the default investment option (ie where contributions are invested for members that do not wish to choose their own investments);
- processing of core financial transactions (ie administration of the Plan, such as investment of contributions);
- the charges and transaction costs borne by members for the default option and any other investment option members can select or have assets in, such as "legacy" funds;
- an illustration of the cumulative effect of these costs and charges;
- net returns of the investment options;
- how the value members obtain from the Plan is assessed; and
- Trustee knowledge and understanding.

The key points that we would like members reading this Statement to take away are as follows:

We regularly monitor the investment arrangements, and we are satisfied that
the default and other investment options remain suitable for the membership.
During the year, the Trustee reviewed the suitability of the default
arrangements and whilst they are expected to perform well and the target

- outcomes remain appropriate, the Trustee is currently considering making some changes. More information will be available in next year's Statement.
- The administrator has processed core financial transactions promptly and accurately to an acceptable level during the Plan year, and we remain comfortable with the administrator's performance.
- Fees can have a material impact on the value of your pension savings and the fee impact is greater the more time passes, since fees reduce the amount of money that can grow with future investment returns.
- Fees for the investment options are set out in this Statement, and we remain comfortable that these fees are reasonable given the circumstances of the Plan and represent value for the benefits members obtain.
- Please rest assured that we are looking after your best interests as members, and we undertake training and receive advice as appropriate so that we have sufficient knowledge and understanding to do so effectively.

## 2. Default arrangements

The Plan is used as a Qualifying Scheme for automatic enrolment purposes. This means that it is used as a pension savings scheme for employees who are eligible for automatic enrolment into a pension scheme.

We have made available a range of investment options for members. Members who join the DC Section of the Plan and who do not choose an investment option are placed into the Lifestyle: Continued Growth, (the "Default"). We recognise that most members do not make active investment decisions and instead invest in the Default. After taking advice, we decided to make the Default a lifestyle strategy, which means that members' assets are automatically moved between different investment funds as they approach their target retirement date.

For members of the DB Section with legacy AVCs, the default option is the Lifestyle: Cash Focused.

The Lifestyle: Annuity Protection is also deemed to be a default as this was a previous default investment option.

Furthermore, the Cash Fund is an additional default fund, created when members' funds were compulsorily mapped into the fund (i.e., moved without member consent) when members have been unwilling or unable to make a choice about where to invest their contributions and/or savings due to fund closures.

These additional defaults must adhere to the legal requirements that apply to default arrangements.

We are responsible for investment governance, which includes setting and monitoring the investment strategy for the default arrangements.

Details of the objectives and our policies regarding the default arrangements are set out in a document called the 'Statement of Investment Principles' (the "SIP"). The Plan's SIP covering the default arrangements is attached to this Statement as an Appendix.

The default arrangements are reviewed at least every three years, and the last review was discussed with the Investment Sub-Committee on 8 March 2023 and 28 April 2023, and was completed and presented to the Trustee on 6 June 2023. The review concluded the Plan's default strategies are expected to perform well compared to the master trust peer group, based on forward looking modelling. However, the analysis highlighted the low level of risk of the at-retirement allocation compared to the broader market.

The review considered the demographics of the Plan's membership. Based on the analysis of the memberships for the DC and AVC sections, it was concluded the target outcomes remain appropriate.

Three key themes were considered throughout the review:

- Invest responsibly The Plan has already made significant changes to the
  default strategy to take greater account of responsible investment and in
  particular climate risk. However, it's important to consider whether the Plan
  could further improve its allocations from investments available on the Legal
  & General platform.
- Less liquid assets The government now requires DC schemes to consider
  whether less liquid assets are appropriate for default strategy design. As
  such, the market is developing fast which will offer more choice to schemes
  on how they could invest, if they so wish.
- Retirement allocations 2022 provided a challenge to retirement allocations across the DC industry, given the poor returns suffered by members. It is appropriate for all DC schemes to review strategy allocations as members approach retirement to make sure they remain appropriate.

The review concluded there are no changes required for the Accelerated Growth and Moderate Growth funds (used with each of the default lifestyle strategies), however, consideration was given to exploring the structure of the final atretirement allocation of the Lifestyle: Continued Growth to better support

members approaching retirement. At the time of preparing this Statement, changes to the at-retirement allocations are still under consideration. The at-retirement allocation of the Cash Focused and Annuity Focused lifestyle strategies remain appropriate. However, the Trustee has since undertaken a further review of various aspects of the overall strategy design including the investment strategy, including such things as private market investments. More information will be shared within next year's Statement.

In addition to triennial strategy reviews we also review the performance of the default arrangements against their objectives on a quarterly basis. This review includes performance analysis to check that the risk and return levels meet expectations. Our reviews over the Plan year concluded that the default arrangements were performing broadly as expected and consistently with the aims and objectives as stated in the SIP.

#### Asset allocation breakdown<sup>1</sup>

We are required to calculate the percentage of the Plan assets within the default arrangements allocated to each of the following asset classes. In line with DWP's guidance we have also shown this asset allocation for different ages as at the Plan year end.

#### **Lifestyle: Continued Growth**

| Asset class                       | Allocation<br>25 y/o % | Allocation<br>45 y/o % | Allocation<br>55 y/o % | Allocation at retirement % |
|-----------------------------------|------------------------|------------------------|------------------------|----------------------------|
| Cash                              | -                      | -                      | 0.5                    | 16.5                       |
| Corporate bonds (UK and overseas) | -                      | -                      | 14.8                   | 40.5                       |
| UK government bonds               | -                      | -                      | 0.9                    | 0.6                        |
| Overseas government bonds         | -                      | -                      | 8.4                    | 5.2                        |
| Listed equities <sup>2</sup>      | 100.0                  | 100.0                  | 68.2                   | 30.1                       |
| Private equity                    | -                      | -                      | -                      | -                          |
| Infrastructure (direct)           | -                      | -                      | -                      | -                          |
| Property (direct)                 | -                      | -                      | 3.1                    | 2.0                        |
| Private debt                      | -                      | -                      | 1.3                    | 0.8                        |
| Other                             | -                      | -                      | 2.8                    | 4.3                        |

Lifestyle: Cash Focused

| Asset class                       | Allocation<br>25 y/o % | Allocation<br>45 y/o % | Allocation 55 y/o % | Allocation at retirement % |
|-----------------------------------|------------------------|------------------------|---------------------|----------------------------|
| Cash                              | -                      | -                      | 0.5                 | 75.1                       |
| Corporate bonds (UK and overseas) | -                      | -                      | 14.8                | 4.6                        |
| UK government bonds               | -                      | -                      | 0.9                 | 0.3                        |
| Overseas government bonds         | -                      | -                      | 8.4                 | 2.6                        |
| Listed equities <sup>2</sup>      | 100.0                  | 100.0                  | 68.2                | 15.1                       |
| Private equity                    | -                      | -                      | -                   | -                          |
| Infrastructure (direct)           | -                      | -                      | -                   | -                          |
| Property (direct)                 | -                      | -                      | 3.1                 | 1.0                        |
| Private debt                      | -                      | -                      | 1.3                 | 0.4                        |
| Other                             | -                      | -                      | 2.8                 | 0.9                        |

**Lifestyle: Annuity Protection** 

| Asset class                       | Allocation<br>25 y/o % | Allocation<br>45 y/o % | Allocation 55 y/o % | Allocation at retirement % |
|-----------------------------------|------------------------|------------------------|---------------------|----------------------------|
| Cash                              | -                      | -                      | 0.5                 | 25.1                       |
| Corporate bonds (UK and overseas) | -                      | -                      | 14.8                | 41.4                       |
| UK government bonds               | -                      | -                      | 0.9                 | 21.5                       |
| Overseas government bonds         | -                      | -                      | 8.4                 | 1.6                        |
| Listed equities <sup>2</sup>      | 100.0                  | 100.0                  | 60.4                | 7.6                        |
| Private equity                    | -                      | -                      | -                   | -                          |
| Infrastructure (direct)           | -                      | -                      | -                   | -                          |
| Property (direct)                 | -                      | -                      | 3.1                 | 0.6                        |
| Private debt                      | -                      | -                      | 1.3                 | 0.3                        |
| Other                             | -                      | -                      | 10.6                | 2.0                        |

#### **Cash Fund**

| Asset class             | Allocation<br>25 y/o % | Allocation<br>45 y/o % | Allocation<br>55 y/o % | Allocation at retirement % |
|-------------------------|------------------------|------------------------|------------------------|----------------------------|
| Cash                    | 100.0                  | 100.0                  | 100.0                  | 100.0                      |
| Corporate bonds         | -                      | -                      | -                      | -                          |
| (UK and overseas)       |                        |                        |                        |                            |
| UK government           | -                      | -                      | -                      | -                          |
| bonds                   |                        |                        |                        |                            |
| Overseas                | -                      | -                      | -                      | -                          |
| government bonds        |                        |                        |                        |                            |
| Listed equities         | -                      | -                      | -                      | -                          |
| Private equity          | -                      | -                      | -                      | -                          |
| Infrastructure (direct) | -                      | -                      | -                      | -                          |
| Property (direct)       | -                      | -                      | -                      | -                          |
| Private debt            | -                      | -                      | -                      | -                          |
| Other                   | -                      | -                      | -                      | -                          |

<sup>&</sup>lt;sup>1</sup>Allocations may not sum to 100% due to rounding.

# 3. Requirements for processing core financial transactions

The processing of core financial transactions for the DC Section of the Plan (including AVCs) is carried out by the administrator, Isio (formally known as Premier Pensions) and for the legacy AVCs, linked to the Plan's DB Section, is carried out by Aviva and Prudential.

Core financial transactions include (but are not limited to): the investment of contributions, processing of transfers in and out of the Plan, transfers of assets between different investments within the Plan, and payments to members/beneficiaries.

The Plan has a Service Level Agreement ("SLA") in place with Isio which covers the accuracy and timeliness of all core financial transactions. The SLA covers, but is not limited to, the following:

- Maintenance of member records;
- Receiving, validating, processing and investing contributions;

<sup>&</sup>lt;sup>2</sup>The listed equities allocation includes shares in listed infrastructure, Global Real Estate Investment Trusts, private equity companies and timberland companies.

- Calculating transfer values and passing all relevant information to the receiving arrangement in the process of transfers of the Plan; and
- The provision of scheme literature and information.

We recognise that delay and error can cause significant issues for members. We have received assurance from Isio, through their AAF (Audit and Assurance Faculty) report (the UK standard for independent assurance reports that verify the effectiveness of controls at service organisations managing pension funds and other services), that there are adequate internal controls to support prompt and accurate processing of core financial transactions.

To help us monitor whether service levels are being met, we receive quarterly reports about Isio's performance and compliance with the SLA. Any issues identified as part of our review processes would be raised with the administrators immediately, and steps would be taken to resolve the issues. These quarterly reports identified three errors during the Plan year, relating to incorrect investments, unit reconciliation and re-issuing an incorrect quotation issued in 2022. Each error has been discussed with and rectified by Isio. Other than the aforementioned errors, we are satisfied that over the period covered by this Statement:

- the administrator was operating appropriate procedures, checks and controls, and operating within the agreed SLA, with 97.63% of all cases processed and completed within the SLA;
- there have been no material administration issues in relation to processing core financial transactions; and
- core financial transactions have been processed promptly and accurately to an acceptable level during the Plan year.

There is not an SLA agreement in place with Aviva or Prudential relating to the AVCs, but Prudential has confirmed that there have been no administration issues during the Plan year that the Trustee should be made aware of. Aviva has confirmed that, although not Plan specific, they achieved a monthly average of 79.9% of all member transactions, against a target of 80%.

### 4. Member-borne charges and transaction costs

We are required to set out the on-going charges incurred by members over the period covered by this Statement, which are annual fund management charges plus additional fund expenses, such as custody costs, but excluding transaction costs; this is also known as the total expense ratio ("TER"). The TER is paid by the members and is reflected in the unit price of the funds.

The stated charges are shown as a per annum ("pa") figure and exclude any administration charges, since these are not met by members.

We are also required to disclose transaction cost figures. In the context of this Statement, the transaction costs shown are those incurred when the Plan's fund managers buy and sell assets within investment funds, but are exclusive of any costs incurred when members invest in and switch between funds. The TER and transaction costs are the only costs borne by members.

The charges and transaction costs have been supplied by Legal & General who is the platform provider for the Plan's DC Section (including AVCs), and Aviva and Prudential in respect of the AVCs. When preparing this section of the Statement we have taken account of the relevant statutory guidance. Under the prescribed way in which transaction costs have been calculated it is possible for figures to be negative, where market movements are favourable between the time a trade is placed and it is executed. We have shown any negative figures in the tables for the year as provided, but for the costs and charges illustrations we have used zero where a transaction cost is negative to give a more realistic projection (ie we would not expect transaction costs to be negative over the long term).

#### **Default arrangements**

The Default arrangement for the DC Section of the Plan is the Lifestyle: Continued Growth. The Default has been set up as a lifestyle approach, which means that members' assets are automatically moved between different investment funds as they approach their target retirement date. This means that the level of charges and transaction costs will vary depending on how close members are to their target retirement age and in which funds they are invested. This is also applicable for the other default arrangements, the Lifestyle: Cash Focused and the Lifestyle: Annuity Protection but is not the case for the Cash Fund.

For the period covered by this Statement, annualised charges and transaction costs are set out in the following tables.

# Default (Lifestyle: Continued Growth) charges and transaction costs (% per annum)

| Years to target retirement date | TER  | Transaction costs |
|---------------------------------|------|-------------------|
| 20 or more years to retirement  | 0.13 | 0.04              |
| 15 years to retirement          | 0.17 | 0.01              |
| 10 years to retirement          | 0.21 | -0.02             |
| 5 years to retirement           | 0.20 | 0.12              |
| At retirement                   | 0.18 | 0.20              |

#### Lifestyle: Cash Focused charges and transaction costs (% per annum)

| Years to target retirement date | TER  | Transaction costs |
|---------------------------------|------|-------------------|
| 20 or more years to retirement  | 0.13 | 0.04              |
| 15 years to retirement          | 0.17 | 0.01              |
| 10 years to retirement          | 0.21 | -0.02             |
| 5 years to retirement           | 0.21 | -0.02             |
| At retirement                   | 0.15 | 0.07              |

#### Lifestyle: Annuity Protection charges and transaction costs (% per annum)

| Years to target retirement date | TER  | Transaction costs |
|---------------------------------|------|-------------------|
| 20 or more years to retirement  | 0.13 | 0.04              |
| 15 years to retirement          | 0.17 | 0.01              |
| 10 years to retirement          | 0.21 | -0.02             |
| 5 years to retirement           | 0.18 | 0.14              |
| At retirement                   | 0.15 | 0.24              |

### Cash Fund charges and transaction costs (% per annum)

| Years to target retirement date | TER  | Transaction costs |
|---------------------------------|------|-------------------|
| All periods to retirement       | 0.13 | 0.10              |

The default arrangement does not have any performance based fees associated with it.

#### **Self-select and AVC options**

In addition to the Default arrangement, members of the Plan's DC Section also have the option to invest in several other self-select funds. The level of charges for each self-select fund (including those used in the Default) and the transaction costs over the period covered by this Statement are set out in the following table. The underlying funds used within the Default are shown in **bold**.

#### Self-select fund charges and transaction costs (% per annum)

|  | (70   10 |                   |
|--|----------|-------------------|
| Fund name                                | TER      | Transaction costs |
| Accelerated growth fund                  | 0.13     | 0.04              |
| Moderate growth fund                     | 0.21     | -0.02             |
| Cash fund                                | 0.13     | 0.10              |
| Pre-retirement fund                      | 0.16     | 0.56 <sup>1</sup> |
| AAA-AA-A corporate bond all-stocks index | 0.15     | -0.04             |
| fund                                     |          |                   |
| Amanah fund                              | 0.35     | -0.06             |
| Annuity focused fund                     | 0.14     | 0.37              |
| Ethical global equity fund               | 0.30     | 0.00              |
| Property fund                            | 0.73     | -0.70             |
| UK equity fund                           | 0.10     | -0.01             |
| World emerging markets equity fund       | 0.34     | 0.12              |
| World equity fund (hedged)               | 0.15     | 0.07              |
| World equity fund (unhedged)             | 0.13     | 0.02              |
|  |          |                   |

Most AVCs are now invested in the same funds available to members of the Plan's DC Section. The exceptions to this are set out in the following table. For those funds used in the Plan's DC Section and which are provided as AVC options have the same TER and transaction costs, unless otherwise specified.

<sup>&</sup>lt;sup>1</sup>The transaction costs for the Pre-retirement fund as an AVC fund were 0.29% over the Plan year. LGIM confirmed that the transaction costs for the DC fund are higher due to implicit transaction costs and anti-dilution offset.

**AVC fund charges and transaction costs (% per annum)** 

| Fund name   | TER              | Transaction costs |
|---|------------------|-------------------|
| Prudential With-Profits Cash Accumulation Fund            | N/A <sup>1</sup> | 0.172             |
| Aviva With-Profit Fund (NU) Pension Standard Series 01    | 0.88             | 0.04              |
| Pension Compound Life & Pension WP conventional Series A3 | 0.54             | 0.04              |

<sup>&</sup>lt;sup>1</sup>Prudential were unable to provide the TER for this fund.

#### Illustration of charges and transaction costs

The following table sets out an illustration of the impact of charges and transaction costs on the projection of an example member's pension savings. In preparing this illustration, we had regard to the relevant statutory guidance.

- The "before costs" figures represent the savings projection assuming an investment return with no deduction of member borne charges or transaction costs. The "after costs" figures represent the savings projection using the same assumed investment return but after deducting member borne charges and an allowance for transaction costs.
- The transaction cost figures used in the illustration are those provided by the managers over the Plan Year subject to a floor of zero (so the illustration does not assume a negative cost over the long term).
- The illustration is shown for the Default (the Lifestyle: Continued Growth, as well as the other legislative default arrangements (the Lifestyle: Cash Focused, the Lifestyle: Annuity Protection and the Cash Fund) and two funds from the Plan's self-select fund range, excluding the legacy AVCs in the Plan, linked to the Plan's DB Section. The two self-select funds shown in the illustration are:
  - the fund with highest annual member borne costs (TER and transaction costs) – this is the Pre-Retirement Fund
  - the fund with lowest annual member borne costs this is the Managed Property Fund

<sup>&</sup>lt;sup>2</sup>This is the transaction cost for the period 01/07/2022-30/06/2023. Prudential were unable to provide the transaction cost for the Plan year.

#### Notes

- Values shown are estimates and are not guaranteed. The illustration does
  not indicate the likely variance and volatility in the possible outcomes from
  each fund. The numbers shown in the illustration are rounded to the nearest
  £100 for simplicity.
- Projected pension pot values are shown in today's terms, and do not need to be reduced further for the effect of future inflation. The long-term annual inflation assumption used is 2.5%.
- Annual salary growth is assumed to be 2.5%. Salaries could be expected to increase above inflation to reflect members becoming more experienced and being promoted. However, the projections assume salaries increase in line with inflation to allow for prudence in the projected values.
- The starting pot size used is £5,200. This is the approximate average (median) pot size for active (contributing) members aged 28 years and younger (rather than using a whole membership average, we have taken this approach to give a more realistic 40-year projection).
- The projection is for 40 years, being the approximate duration that the youngest Plan member has until they reach the Plan's Normal Pension Age.
- The starting salary is assumed to be £29,300 This is the approximate median salary for active members aged 28 or younger.
- Total contributions (employee plus employer) are assumed to be 16.0% of salary per year.

- The projected annual returns used are as follows:
  - Lifestyle: Continued Growth: 3.5% above inflation for the initial years, gradually reducing to a return of 1.2% above inflation at the ending point of the lifestyle.
  - Lifestyle: Cash Focused: 3.5% above inflation for the initial years, gradually reducing to a return in line with inflation at the ending point of the lifestyle.
  - Lifestyle: Annuity Protection: 3.5% above inflation for the initial years, gradually reducing to a return of 2.2% above inflation at the ending point of the lifestyle.

7

- Cash Fund: 0.5% below inflation.
- Managed Property Fund: 1.5% above inflation.
- UK Equity Fund: 3.5% above inflation.
- No allowance for active management outperformance has been made.

v7.0

#### 5. Investment returns

This section shows the annual return, after the deduction of member borne charges, for all investment options in which member assets were invested during the Plan year. We have had regard to the statutory guidance in preparing this Section.

The With-Profits fund returns stated are that of the underlying investments, which are the only figures that can be quoted. With Profits Funds are designed to smooth the returns members receive over their investment term and underlying investment returns are not the only factor determining the return members receive.

For arrangements where returns vary with age, such as for the Default, returns are shown over various periods for a member aged 25, 45 and 55 at the start of the period the returns are shown over.

# Lifestyle: Continued Growth (Default) net returns over periods to Plan year end

| Age of member at the start of the period | 1 year<br>(%) | 5 years<br>(% pa) |
|--|---------------|-------------------|
| 25                                       | 13.4          | 11.4              |
| 45                                       | 13.4          | 11.0              |
| 55                                       | 8.7           | 4.9               |

#### Lifestyle: Cash Focused net returns over periods to Plan year end

| - Industry for Guerri Todaecu Het        | TOTAL TIO     | ao to i idii yodi oila |
|--|---------------|------------------------|
| Age of member at the start of the period | 1 year<br>(%) | 5 years<br>(% pa)      |
| 25                                       | 13.4          | 11.4                   |
| 45                                       | 13.4          | 11.0                   |
| 55                                       | 8.7           | 5.5                    |

# Lifestyle: Annuity Protection net returns over periods to Plan year end

| Age of member at the start of the period | 1 year<br>(%) | 5 years<br>(% pa) |
|--|---------------|-------------------|
| 25                                       | 13.4          | 11.4              |
| 45                                       | 13.4          | 11.0              |

| Age of member at the start of the period | 1 year<br>(%) | 5 years<br>(% pa) |  |
|--|---------------|-------------------|--|
| 55                                       | 8.7           | 4.4               |  |

#### Self-select fund net returns over periods to Plan year end

| Fund name                          | 1 year (%) | 5 years (% pa) |

<sup>&</sup>lt;sup>1</sup>At the time of preparing this Statement, Aviva have not provided the net returns for this fund. The Trustee has requested this information.

#### 6. Value for members assessment

We are required to assess every year the extent to which member borne charges and transaction costs represent good value for members and to explain that assessment. There is no legal definition of 'good value' which means that determining this is subjective. Our general policy in relation to value for member considerations is set out below.

We review all member-borne charges (including transaction costs where available) annually, with the aim of ensuring that members are obtaining value for money given the circumstances of the Plan. The date of the last review was 29 April 2024. We note that value for money does not necessarily mean the lowest fee, and the overall quality of the service received has also been considered in this assessment.

Our investment advisers have confirmed that the fund charges are competitive for the types of funds available to members. The analysis conducted to reach this conclusion compares the Plan's total annual charges with fees (excluding administration costs) against other DC schemes with assets up to £500m that LCP advises.

The fund transaction costs were assessed separately from the implicit charges and are varied when compared with the median for other similar DC schemes, with some being significantly above the median while others are in line with, or below, the median.

Our assessment took account of the Trustee's review of the performance of the Plan's investment funds (after all charges and transaction costs) in the context of their investment objectives over the Plan Year. We believe that the default strategy remains appropriate for its objective of targeting drawdown at retirement. Our investment advisers also confirmed that the self-select fund range provides access to all major asset classes.

In carrying out the assessment, we also consider the other benefits members receive from the Plan, which include:

- The Trustee's oversight and governance, including ensuring the Plan is compliant with relevant legislation, and holding regular meetings to monitor the Plan and address any material issues that may impact members;
- the design of the default arrangements and how this reflects the interests of the membership as a whole;
- the range of investment options and strategies;
- the quality of communications delivered to members;

- the quality of support services, such as the Plan website where members can access fund information online;
- the efficiency of administration processes and the extent to which the administrator met or exceeded its service level standards; and
- the benefits available in-Plan at retirement.

As detailed in the earlier section covering the processing of core financial transactions, we are comfortable with the quality and efficiency of the administration processes provided by Isio.

Overall, we believe that members of the Plan are receiving very good value for money for the charges and cost that they incur, for the reasons set out in this section.

We aim to improve value for members in the future by:

- continuing to monitor member charges to ensure they remain competitive;
- continuing to monitor the administration performance of Isio;
- progressing the ongoing review of the default strategies and self-select range to ensure the optimal strategy design and fund range for the membership;
- continuing to review the appropriateness of the communications strategy and consider any further improvements that could be made to the communications offering; and
- challenging ourselves as Trustee of the Plan to improve how we operate and improve efficiency so we can focus on areas that matter most to members.

### 7. Trustee knowledge and understanding

We are required to maintain appropriate levels of knowledge and understanding to run the Plan effectively. We have measures in place to comply with the legal and regulatory requirements regarding knowledge and understanding of relevant matters, including investment, pension and trust law. Details of how the knowledge and understanding requirements have been met during the period covered by this Statement are set out below.

With the help of our advisers, we regularly consider training requirements to identify any knowledge gaps. Our advisers proactively raise any changes in governance requirements and other relevant matters as they become aware of them. Our advisers typically deliver training on such matters at Trustee meetings if they were material. During the period covered by this Statement, the Trustee Directors all completed a minimum of 15 hours of training and received training on a number of topics, including but not limited to:

- Environmental, Social and Governance ("ESG");
- Ethical and illiquid investments;
- Use of platforms;
- Task Force on Climate-Related Financial Disclosures ("TCFD") and Task Force on Nature-Related Financial Disclosures ("TNFD");
- Stewardship priorities;
- Information Commissioner's Office ("ICO") case studies;
- The Pensions Regulator ("TPR") enforcement;
- Corporate governance;
- Discretions; and
- Cyber training.

Additionally, we receive quarterly updates on topical pension issues from our investment, legal and actuarial advisers.

We are familiar with and have access to copies of the Plan's governing documentation and documentation setting out our policies, including the Trust Deed & Rules and SIP (which sets out the policies on investment matters). In particular, we refer to the Trust Deed and Rules as part of considering and deciding to make any changes to the Plan, and the SIP is reviewed regularly and as part of making any change to the Plan's investments. Further, we believe that we have sufficient knowledge and understanding of the law relating to pensions and trusts and of the relevant principles relating to the funding and investment of occupational pension schemes (including the Statement of Funding principles) to fulfil our duties.

All the Trustee Directors have completed TPR's Trustee Toolkit (an online learning programme, designed to help trustees of pension schemes meet the minimum level of knowledge and understanding required by law). Regular training is provided on aspects of the Trustee Knowledge and Understanding requirements. Other training relates to topical items or specific issues under consideration and during the Plan year.

A training log is maintained in line with best practice and the training programme is reviewed annually to ensure it is up to date. The Plan has a new trustee appointment process and policy in place and a structured induction process for new trustees. This includes a half day training session and mentoring programme for new trustees and sets out the requirements for new trustees, who are also required to complete TPR's Trustee Toolkit within six months.

A skills matrix is used to conduct an evaluation of our knowledge and to help to identify training needs every 12/18 months.

Considering our knowledge and experience and the specialist advice received from the appointed professional advisors (eg investment consultants, legal advisors), we believe that we are well placed to exercise our functions as Trustee Directors of the Plan properly and effectively.
